## TUI International Conference

Dear Comrades,

As you can observe by reading the minutes of the last General Council, held on 5<sup>th</sup>.March 2010, it was decided to promote a series of initiatives, among them a TUI International Conference, with the aim of strengthening and widening TUI's action and, at the same time, in terms of the sector contribute for WFTU's 16<sup>th</sup>.Congress which will be held in April 2011, in Athens.

Our comrades from SEGDADELIN/PEO, from **Cyprus**, offered to host this initiative, giving a strong contribution to materialize **this Conference, which will take place on 15<sup>th</sup>/16<sup>th</sup> February 2011.**

We have to start working right away for this initiative to have the success we all wish and the workers need.

And so, we appeal to all Comrades from the General Council to give their contribution and, **by the end of July**, send us:

- Proposals for the theme of the Conference
- Contacts from the trade union organisations in your region, pointing those whose participation, in your view, is very important.

With this information, we shall work to draw the general outlines of the Conference and the topics for a working paper.

In **October**, we shall make the **public announcement of the Conference and send out the invitations.**

**We again stress the need to send us the contributions we asked, by the end of July.**

Thanks and do a great job.

And onward with the struggle!

Wagner Fajardo
